## Overview

The Transportation Security Administration (TSA) of the U.S. Department of Homeland Security (DHS) has issued the Secure Flight Final Rule.

The TSA will determine if the information provided on a passenger matches a person on their "No Fly" or "Selectee" lists and will transmit results back to airlines. The new rule requires airlines (not travel agencies) to send passenger information on existing bookings 72 hours prior to departure, to be vetted against the TSA watch list in the effort to reduce the risk of a terrorist boarding a plane.

Modifications have been made to Trip Manager to collect the Full Name, Date of Birth and Gender to add into all PNRs.

A separate Product Advisory will be sent in reference the TSA changes in Traversa which are scheduled for later in May.

## Customer Benefit

- Secure Flight Information collected once
- No passenger inconvenience at the airport

## Detail and Customer Examples

A new link shall be available on the left navigation bar under the Traveler Information section. The link will be displayed for users who have the "Personal Information and Secure Flight Information" authority enabled.

The screenshot shows a web interface titled "Profile Authorities" with a green header. It is divided into two sections: "Traveler Planning" and "Profile Administration".

The first and last names are mandatory, however the middle name is optional since not every traveler has a middle name.

For privacy, the Date of Birth information will be masked with XXX's once the traveler clicks submit.

If user has clicked the checkbox (declined to enter the Secure Flight information) then the normal purchase process will continue and a remark is added to remarks - User has declined information for TSA Secure Flight Rule.

When the traveler clicks *Purchase Now*, if they have not filled out the Secure Flight Information detail or clicked the Decline checkbox, the following screen will appear. The traveler will have to either enter their first and last name as it appears on their government document or check the Decline box to move forward.

**Profile Maintenance:**

A new section 'Secure Flight Info' is added to the Profile Maintenance screen under the Travel Info section. The administrator will be alerted via email whenever there is a change in any of the following fields. The default for these new fields will be unchecked. The Administrator will have to check them in each Trip Manager company to activate this new functionality.

Secure Flight Info:	
<input type="checkbox"/> First Name	<input type="checkbox"/> Date of Birth
<input type="checkbox"/> Last Name	<input type="checkbox"/> Gender
<input type="checkbox"/> Middle Name	<input type="checkbox"/> Decline Information

**File Conversion:**

Six new fields, First Name, Last Name, Date of Birth, Gender, Middle Name and Refusal Info can be added in File Conversion Template.

**Profile Model:**

Six new fields are available in the Profile Elements list of the Profile Model. It is suggested that these new fields be added to the Profile Models so that the data is generated on traditional reservations. Updating profiles will require synchronization. REMINDER- Please synchronize companies with more than 500 profiles during off peak hours (evenings and/or weekends) to avoid slowing the Profile Manager server during normal working hours.
