## Overview

Currently Travelport only allows special fare open jaws within the same Area or Traffic Conference, with the exception of open jaws between Africa or the Middle East and the South Asian Sub-continent. It is desirable to enhance the systems and allow special fare open jaws between any two points worldwide, as long as the itinerary passes the combination rules (category 10) filed on the fares being quoted.

These new options for special fare open jaw pricing units will be returned for any pricing, or shopping entry on all platforms if the open jaw combination is valid.

## Customer Benefit

- Lower fares may be returned in cases where open jaw restrictions previously prevented a special fare open jaw from being returned for the pricing solution.

## Detail and Customer Examples

With this enhancement special fare open jaw pricing solutions will now be returned regardless of where the end-points of the open jaw are located, within the constraints of the data filed in category 10. It is crucial for anyone filing fares with ATPCO or SITA to file their intended open jaw restrictions to control where the open jaw is allowed.

**The following examples of rules text displays show different open jaw combination restrictions filed in category 10.**

For the rule displayed below the open jaw is limited by mileage of the open sector, based on a comparison to the mileage of the shortest fare component. The user also has the ability to file restricting the open jaw to be equal to or less than the longest flown fare component.

The following examples of pricing displays show itineraries that will now allow special fare open jaw combinations that would have failed this pricing solution previously.

For the following example a combination of special fares will now be allowed for an open jaw pricing unit as long as category 10 does not restrict the combination. The open jaw in this case is between Area 2 (Traffic Conference 2) and Area 3 (Traffic Conference 3).

1	XX	132Q	15JUN	LGWNBO	GK1	1020A	855P		MO
2		ARNK							
3	XX	16Q	15AUG	NRTLGW	GK1	1055A	250P		SA

The rules for both fare components state in category 10 that there are no restrictions to where the open jaw can be taken. In this case there is only a carrier restriction to the open jaw combination.

For the following example a combination of special fares will now be allowed for an open jaw pricing unit as long as category 10 does not restrict the combination. The open jaw in this case is between Area 2 (Traffic Conference 2) and Area 1 (Traffic Conference 1).

1	XX	472V	19JUN	BRUFRA	GK1	200P	300P		FR

This itinerary is valid for a special fare open jaw for the VWXX1L fare from BRU to JNB and the QLXX1Y from JNB to LAS. The open jaw is between Area2 and Area1. Currently 360Fares, FareSource and ePricing will not quote this combination due to the limitation of the Special fare open jaw between Areas. Both fares allow the combination.
