Issue History:	Version 01			

Overview

This release will enhance how Travelport ViewTrip displays individual itineraries if the traveller is part of a group booking.

Customer Benefit

Improve privacy and data protection for travellers and their itineraries.

Detail and Customer Examples

If an agency has created a Group PNR with a C/ header, when each traveller displays their itinerary, only their own itinerary and associated remarks will be displayed.

If there is more than one passenger in the group booking with the same surname/last name, they will be required to enter their first/given name as entered into the PNR, into a new field on the login screen, in order for the itinerary to be displayed for that individual.

Additional Identification Required

Your reservation requires that you identify yourself using your full name.

Please enter your first or given name

Please provide your first or given name exactly as it appears on your government-issued identification.

* Your First or Given Name: AUSTIN

Required fields are marked with an asterisk (*)

In addition, this release will include two new Online Check-in carriers – Air Canada and Turkish International. Any itinerary which includes an air segment of either of these airlines will be able to check-in online from a link within the itinerary.
