Overview

Two new drop down car options have been added to give travelers more flexibility in viewing car results: Preferred Transmission Type and Preferred Fuel/AC Type. More options have also been added to The Preferred Car type.

Customer Benefit

- Traveler is able to reserve more car types in order to best meet their needs
- Administrator has more flexibility enforcing policy compliance

Detail and Customer Examples

This option will be turned on for the COADMIN profile only. To turn this option on for travelers, the GPU options are below:

Global Profile Updates

WARNING:
Global Profile Updates on credit card fields should not be used if traveled in ALL selected traveler profiles.
Be advised that extreme caution should be used when performing Global Profile Updates.

Step 1 of 4:
Select the profiles to edit.

To select some profiles, highlight one or more fields whose setting is 1 or more.

If no selection is made, all profiles will be selected.

Filter Text

While searching for car results in the host, first 2 characters are taken from the car type, the 3rd character from the transmission type and 4th character is appended from the fuel type for a 4 character code in the request.

The default for Preferred Transmission type will be set as **Automatic Unspecified Drive**

The default for Preferred Fuel/AC Type will be set as **Unspecified Fuel with A/C**

- Travelers also have the option to select “Any” for BOTH Preferred Transmission Type and Preferred Fuel/AC.
- If a traveler chooses Transmission Type as ‘Any’ and Fuel/AC Type has a value other than ‘Any’, an error message is displayed to the user to choose a value for Transmission type.

! Transmission Type is required when a Fuel/AC value is selected
