# ViewTrip™ for Travelers

## Get itinerary information, print e-ticket receipts and more, online...anytime.

## Information also is accessible from wherever you are via Web-enabled devices.

**Traveler Access Site**

ViewTrip™ is a free online resource that's informative, easy-to-use and, best of all, always available!
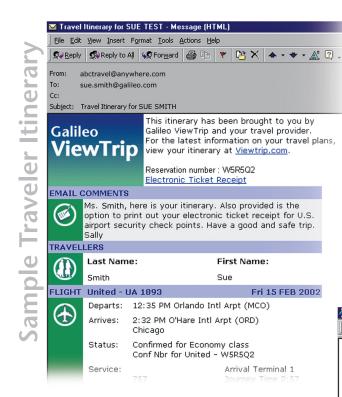

It gives you specific information about any itinerary booked through the Apollo® or Galileo® reservation systems via your company or travel agent.

Just visit www.viewtrip.com and enter the reservation number for a specific itinerary and your last name. You then will be able to view your specific trip details, in addition to weather, travel updates (including links to the FAA and DOT Web sites), airport security information and more.

You'll also be able to print your FAA-compliant e-ticket receipts from the ViewTrip site.

www.viewtrip.com

You can view your trip details anytime, and all itinerary changes are shown in real time. The site also can be accessed via your Web-enabled wireless devices— just bookmark http://wireless.galileo.com/viewtrip. All information found at the ViewTrip site is totally secure so that only you or someone with your reservation number (such as an associate, spouse or child) can access your trip details. ViewTrip also will continue to display complete itineraries up to 24 hours after the last day of travel for a specific trip.
